WORK EXPERIENCE

Sklo Repair hardware engineer

June 2021- February 2022

Worked in a team carrying out detailed repairs on Apple devices. Fixing screens, changing PCB components, and general parts replacement. My role involved working with iPhone screens.

- Cut off the touchscreens.
- Cut off the screen polarizers.
- Changed the backlight of LED screens.
- Soldered the touchscreen connectors.
- Checked the screens for functionality.
- Maintained documentation of work progress.

SKILLS

- Fixing any types of hardware issues
- HTML, CSS
- Java, SQL basics
- Creating networks, configuring switches, routers
- Creating simple electronic circuits, soldering
- Simple video editing in Sony Vegas, Movavi
- Ukrainian (Native), Russian (C2), English (C1)
