WORK EXPERIENCE

Sklo Repair hardware engineer

June 2021- February 2022

Worked in a team carrying out detailed repairs on Apple devices. Fixing screens, changing PCB components, and general parts replacement. My role involved working with iPhone screens.

- Cut off the touchscreens.
- Cut off the screen polarizers.
- Changed the backlight of LED screens.
- Soldered the touchscreen connectors.
- Checked the screens for functionality.
- Maintained documentation of work progress.

SKILLS

- Fixing any types of hardware issues.
- HTML, CSS.
- Java, SQL.
- Setting up networks, configuring switches, routers.
- Creating electronic circuits, soldering.
- Building PCs.
- Simple video editing in Sony Vegas, Movavi.
- Creating stunning presentations.

INTERESTS

- Grinding java at the moment.
- CPU architectures.
- Know SQL basics and want to develop myself in that area.
- Also want to develop myself in any type of cooling systems hardware for gadgets.
- CS pro scene.
